

Marine Boat Yacht 316 Stainless Steel

Turning Lock Lift Handle

As a professional high quality Marine Boat Yacht 316 Stainless Steel Turning Lock Lift Handle manufacturer, you can rest assured to buy Marine Boat Yacht 316 Stainless Steel

Turning Lock Lift Handle from POWER MARINE and we will offer you the best after-sale service and timely delivery. We have been specialized in marine hardware for more than 25 years. Our product is made of 316 stainless steel, which has good corrosion resistance. We can provide high quality products and competitive prices, and we look forward to becoming your long-term partner in China. Welcome to contact us.

Marine Boat Yacht 316 Stainless Steel Turning Lock Lift Handle

1. Product Introduction

POWER MARINE is China manufacturer & supplier who mainly produces Marine Boat Yacht 316 Stainless Steel Turning Lock Lift Handle with many years of experience. Hope to build business relationship with you. We follow the quality of rest assured that the price of conscience, dedicated service. Marine Boat Yacht 316 Stainless Steel Turning Lock Lift Handle has a longer service life in seawater, ultraviolet light and humid environments. We can provide high quality products and competitive prices, and we look forward to becoming your long-term partner in China. Welcome to contact us.

2. Product Parameter (Specification)

Product name	Marine Boat Yacht 316 Stainless Steel Turning Lock Lift Handle
Specification available	Multiple sizes

Shandong Power Industry and Trade Co., Ltd.

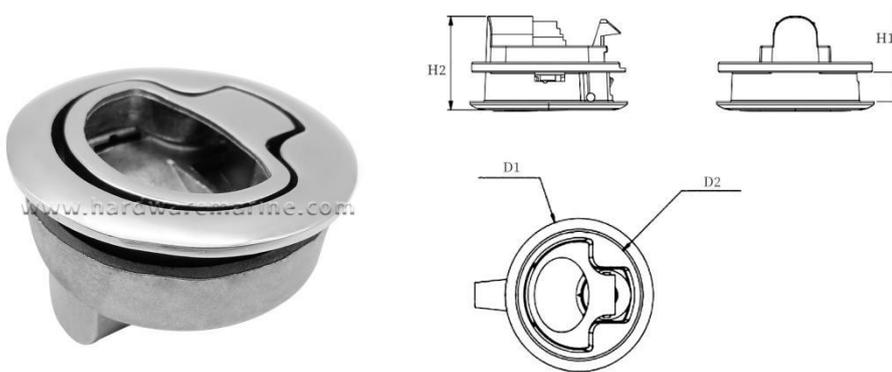

Address: Chengyang District, Qingdao, Shandong Province, China

Tel: [+86-15865772126](tel:+86-15865772126)

[+86-0532-83875707](tel:+86-0532-83875707)

E-mail: andy@hardwaremarine.com

Standards that follow to	ISO 9001, CE, TUV, CSS, SGS.
Samples available	Yes.
Packing method	Bubble bag+Wooden carton
Production lead time	10-15 days for a 20ft container, 20-25 days for a 40ft container.
Warranty time	Support returns and exchanges
Payment term	T/T
FOB loading port	Qingdao China

Code	D1 mm	D2 mm	H1 mm	H2 mm
PM6250A	62	50.5	11.5	37.4

Product Feature And Application

The history of Marine Boat Yacht 316 Stainless Steel Turning Lock Lift Handle for marine ships is closely related to the development of stainless steel materials and the progress of marine technology. Stainless steel is a steel alloy containing at least 10.5% chromium, which makes it uniquely resistant to corrosion, staining and rust. It was invented in the early 20th century by Harry

Brearley in England, who was looking for a material that could resist corrosion caused by the sulfuric acid used in making gun barrels. In early boating and yachting designs, the handles used to lock and lift various mechanisms were often made from materials such as cast iron or brass. These materials are susceptible to corrosion in harsh marine environments. The introduction of stainless steel as a viable option for marine hardware revolutionized the industry. Marine Boat Yacht 316 Stainless Steel Turning Lock Lift Handle offer a variety of advantages for marine applications. First, their corrosion resistance ensures they can withstand exposure to salt water without deterioration. This is crucial as boats and yachts are constantly exposed to the corrosive effects of seawater. Additionally, stainless steel offers excellent strength and durability, allowing the lifting mechanism to withstand heavy loads and continuous use without wear or breakage. Over time, advances in stainless steel manufacturing technology and design led to the development of more complex and efficient rotary lock lift handles. Marine Boat Yacht 316 Stainless Steel Turning Lock Lift Handle are designed to provide secure locking and smooth lifting operation for a variety of boat and yacht components such as hatches, doors and storage compartments. Today, Marine Boat Yacht 316 Stainless Steel Turning Lock Lift Handle have become standard in the marine industry, ensuring reliable and long-lasting performance in harsh marine environments.

Product Details

Marine Boat Yacht 316 Stainless Steel Turning Lock Lift Handle typically include the following features:

Material: Made of high-quality stainless steel, ensuring corrosion resistance and durability in marine environments.

Locking Mechanism: Equipped with a secure locking mechanism that securely latches and locks various boat or yacht components such as hatches, doors or storage compartments. This feature ensures the handle remains in the locked position, preventing accidental opening or unauthorized access.

Rotation Function: Marine Boat Yacht 316 Stainless Steel Turning Lock Lift Handle is designed to easily rotate or turn, allowing it to smoothly raise and lower the component to which it is attached. This feature facilitates the user's operation and control of the handle, making it convenient and easy to use.

Lifting Capacity: Rotary lock lifting handles have the strength and ability to lift and support heavy objects associated with marine applications. It ensures stability and safe positioning of the lifting components even in rough waters or dynamic conditions.

Tamper-resistant: Marine Boat Yacht 316 Stainless Steel Turning Lock Lift Handle feature tamper-resistant design elements, such as hidden or recessed locking mechanisms, to deter unauthorized access or tampering.

Design: Available in a variety of modern and stylish designs to complement the aesthetics of your ship or yacht. The handle can be polished, brushed or satin finished to give it an attractive appearance and enhance its corrosion resistance.

Easy Installation: Marine Boat Yacht 316 Stainless Steel Turning Lock Lift Handle are typically designed for easy installation on the surface of a boat or yacht. They usually come with pre-drilled mounting holes and included hardware for easy installation.

Together, these features make the Marine Boat Yacht 316 Stainless Steel Turning Lock Lift Handle an important and reliable component for protecting and managing various access points on ships and yachts.

Loading & Shipment

Thanks to superior quality, we have been establishing a close & long business partner relationship with the customers from more than 30 countries, and we've gotten so many positive feedback regarding the quality.
